### Customer Service

For over 30 years, Columbia Medical has been dedicated to providing excellent customer service. Questions? No problem. Contact us at (800) 454-6612 or (562) 282-0244, FAX (310) 305-1718, or you can send an e-mail to [info@columbiamedical.com](mailto:info@columbiamedical.com). Our Customer Service Representatives are available Monday through Friday, 7am - 5pm PST/PDT to answer questions regarding any of our products. For added convenience, our website is available 24 hours a day, 7 days a week at [www.columbiamedical.com](http://www.columbiamedical.com).

### Manufacturer's Warranty

Every Columbia Medical product comes with our one year manufacturer's warranty. This warranty ensures that when you receive our products, they will arrive free of defects in material and workmanship. We will repair or replace any part or entire product at our discretion for a period of up to one year from the date of delivery to the original purchaser. This warranty does not include cost of inconvenience, shipping, property damage, misuse, abuse, accident, or similar incidents. The warranty will not apply if the product has been modified, tampered with or repaired by unauthorized individuals. Custom orders are non-refundable and non-returnable.

### Shipping

In-stock products will ship within three business days. Shipping charges are included on the invoice when applicable. Products are shipped by FedEx ground. Orders under \$100, for International and Transfer Chair are charged a shipping fee.

### Proof of Delivery

Proof of Delivery confirmation is available by contacting Customer Service.

### Return Policy

Columbia Medical will provide a refund for all unused products returned within 30 days from the date of purchase, with an approved Return Authorization. Returned items are subject to a reprocessing fee. Products must be new, unused condition, not tampered with, and in original packaging. To obtain a Return Authorization, please call 800-454-6612 or 562-282-0244, Monday through Friday, 7am - 5pm PST/PDT.

Custom orders are non-refundable and non-returnable.

Product information and photography included in this catalog were as accurate as possible at the time of publication. Subsequent refinements may be evident in the actual product. Specifications are subject to change without notice.

For most current specifications, please visit us on the web at [www.columbiamedical.com](http://www.columbiamedical.com).

## COLUMBIA MEDICAL CAR SEATS ARE SPECIFICALLY DESIGNED TO PROVIDE BETTER POSITIONING FOR CHILDREN AND ADULTS WITH SPECIAL NEEDS

### What do IPS™ and APS™ mean?

#### IPS (Integrated Positioning System™)

The Therapedic™ Integrated Positioning System (IPS) car seats have high profile sides to provide “**built-in**” **lateral positioning**. The IPS models (#2000 and #2500) have a more “closed” seat to back angle and are more upright than the APS models. The IPS models **ALWAYS** require tethering to a vehicle tether anchor for installation.

Additional lateral positioning pads may be added to the IPS for better fit and can be removed as the child grows. Height adjustable head pads or headwings come standard with the car seat. Other options include an abductor, an extensor thrust wedge and memory foam pads.

#### APS (Adjustable Positioning System™)

The Spirit™ Adjustable Positioning System (APS) car seats have **low profile sides** to make transfers easier. The open seating area allows for **wider shoulder and seated leg widths** than the IPS models. Height adjustable headwings provide lateral head positioning. For users who need more comprehensive positioning, the Spirit APS has **optional swing-away hip and trunk supports, and memory foam pads** similar to a wheelchair.

If the Spirit APS is installed with a lap/shoulder belt and the shoulder belt falls within the **labeled safety zone**, additional tethering to a vehicle tether anchor is not required.

### Why is a special needs car seat so important?

#### Growth Capability

Children with special needs often require car seats for a longer period of time than typically developing children. Special needs car seats are designed for and tested to higher weight and height capacities than conventional car seats. **Our car seats can accommodate heights up to 66 inches and weights from 25 to 130 lbs.**

While most conventional car seats have a typical product life span of six years or less, **our car seats have a product life span of TEN years under normal use conditions.**

Specification	2000 IPS	2500 IPS	2400 APS
Max. height	60 inches	66 inches	66 inches
Weight range	20 - 102 lbs.	40 - 130 lbs.	25 - 130 lbs.

#### Higher Harness Height and Weight Capacities

Most conventional car seats with higher height and weight capacities rely upon the use of the vehicle lap/shoulder belt for occupant protection. However, crash tests by transportation safety experts have proven that **a five-point harness provides better occupant protection** than a vehicle lap/shoulder belt.

In addition, five-point harness systems help to maintain better seating posture, especially in special needs car seats when higher harness heights (measurement from seat to top of user’s shoulder) and higher weight limits must be accommodated. **The Columbia Medical car seats utilize a five-point harness** that allows for harness slot heights up to 23 inches and can support up to 130 lbs. in weight.

#### Recline\* for Improved Upper Body Positioning

Some individuals with disabilities need to **recline to maintain good upper body posture**. Aside from infant car seats, most conventional car seats are too upright for these individuals, and thus do not provide enough support. Special needs car seats are ideal when recline is needed. **Columbia Medical car seats offer up to 45° of recline**, depending on the model and vehicle seat recline.

Specification	2000 IPS	2500 IPS	2400 APS
Seat-to-back angle	88°	85°	98°
Max. recline**	15°	15°	30°

\*Recline means "Tilt" in transportation terminology

\*\*When measured on a flat surface. Most vehicle seats add to recline angle.

#### Accessories for Head, Trunk, Hip and Leg Positioning

Most special needs car seats have five-point harnesses that assist with postural control to promote proper breathing and improve seating stability. **Our car seats offer built-in and/or additional accessories for improved overall body alignment** and head, trunk, hip and leg positioning.

Specification	2000 IPS	2500 IPS	2400 APS
Built-in lateral positioning	Yes	Yes	No
Adjustable Swing-Away Hip/Trunk Supports	No	No	Optional
Height Adjustable Head Supports	Yes	Yes	Yes
Positioning Pad Inserts	Yes	Yes	No
Swing-Away Abductor	Optional	Optional	Optional
Memory Foam Pads	Optional	Optional	Optional

# Spirit™ APS™ (Adjustable Positioning System™) Car Seat

Patent #D636,190S

## CAR SEAT SAFETY MEETS COMPLEX POSITIONING

The Spirit APS is the only car seat to offer optional Swing-Away Trunk and Hip Supports usually found only in complex seating/wheelchair systems.

Standard configuration

### Features

- Accommodates users weighing 25 - 130 lbs. and up to 5'6" tall
- Vehicle shoulder belt may be used to tether in many installations
- Standard 5-point harness, unlike many other seats that utilize the automobile's lap and shoulder restraint
- Meets flammability code FMVSS 302 for automotive upholstery
- Crash tested<sup>1</sup>

### Benefits

- Can be outfitted with optional adjustable and swing-away trunk and hip supports for better positioning
- Low profile sides for easier transfer of users
- Open shell design provides more room for varying shoulder and seated leg widths
- Multiple accessories allow restraint systems to grow with the child
- Fits in most cars, vans and school buses

### Includes

- Adjustable Soft-Padded Headwings
- Durable, machine-washable padded cover
- Recline bar (-30° from vertical when measured on a flat surface)
- 5-Point Safety Harness
- Latex and silicone free

### Available Colors

<sup>1</sup>MODEL #2400 meets or exceeds crash testing requirements in the US (FMVSS #213)

# Accessories for Spirit™ APS™ (Adjustable Positioning System™) Car Seat

## Swing-Away Abductor

Improves hip alignment and stabilizes seating posture. Available in blue or walnut colored upholstery.

**MODEL #2415** - For use with #2400

**MODEL #2419** - For use with 4" seat depth extender #2425

## Seat Depth Extender

Increases seat depth by 4".

**MODEL #2425<sup>1</sup>**

## Incontinence Cover<sup>2</sup>

Leak-resistant cover helps shield seating from fluid and soiling.

**MODEL #2405 Car Seat Cover<sup>2</sup>**

**MODEL #2406 Hip Support Pad Covers (pair)**

**MODEL #2409 Swing-Away Abductor Cover**

## Viscoelastic Foam Padding

Set of seat and back foam inserts with an added layer of memory foam to cradle the body prominences for pressure reduction and comfort.

**MODEL #2410**

## BuckleGuard

Prevents child from releasing the five-point harness buckle. For use with all Columbia Medical car seats.

**MODEL #2075**

## Extensor Thrust Wedge

Changes seat to back angle. Increases front seat height by 3" and rear seat height by 1".

**MODEL #2455**

## Tether Strap (Latch Compatible)

Required accessory. Secures the top of the car seat to the vehicle seat.

**MODEL #2400P-01**

## Swing-Away Hip Supports (sold as single units)

Provide adjustable hip positioning and stability. Can completely swing-away to allow for easy transfer of passenger.

MODEL NUMBER	2473-H	2471-H
Hip Width Ranges	10" - 14"	13" - 16"
Brackets	2" x 3", 2" x 3"	2" x 2", 2" x 2"

## Hip Support Pads (sold separately as single units)

MODEL NUMBER	2481-S	2481-M	2481-L
Dimensions	3" x 6"	4" x 8"	4" x 12"

## Swing-Away Trunk Supports (sold as single units)

Provide adjustable trunk positioning and stability. Can completely swing-away to allow for easy transfer of passenger.

MODEL NUMBER	2474-T	2473-T	2472-T	2471-T
Trunk Width Ranges	6" - 12"	10" - 14"	12" - 15"	14" - 16"
Brackets	2" x 4", 2" x 4"	2" x 3", 2" x 3"	2" x 2", 2" x 3"	2" x 2", 2" x 2"

## Trunk Support Pads (sold separately as single units)

MODEL NUMBER	2482-S	2482-M	2482-L
Dimensions	3" x 3"	3" x 5"	4" x 6"

<sup>1</sup>When ordering this item for an existing Spirit APS Car Seat, a new seat cover upholstery (MODEL #2402) must be purchased; please specify color Blue or Walnut.

<sup>2</sup>Covers for swing-away abductor and swing-away hip pads are sold separately.

# Therapeutic™ IPS™ (Integrated Positioning System™) Car Seat

THE CHOICE OF PARENTS AND THERAPISTS WHEN "BUILT-IN" LATERAL POSITIONING IS REQUIRED

\*Shown with head pads

\*Shown with headwings

## Includes

- Independently Adjustable Height Head Pads or Adjustable Soft-Padded Headwings
- Shoulder Harness Pads
- Crotch Strap Pad
- Lateral Positioning Pads
- 5-Point Safety Harness
- Dual Hook Tether Strap
- Easy to Follow Installation Instructions

## Available Colors

## Features

- Two sizes available, accommodating users weighing 20 - 130 lbs. and up to 5'6" tall
- Durable, machine washable, comfortable padded cover
- Standard 5-point harness restraint for better protection than vehicle lap/shoulder belt
- Meets flammability code FMVSS 302 for automotive upholstery
- Latex and silicone free
- Crash tested<sup>1</sup>
- Positioning options available

## Benefits

- Fits in most cars, vans and school buses
- Model #2000 is certified for use in aircraft
- Lightweight, weighing much less than most comparable car seats
- Optional seat depth extender allows car seat to grow with the child

# Commitment to Bathroom Safety

## COLUMBIA MEDICAL OFFERS A FULL LINE OF BATHING/ SHOWERING/COMMUNE POSITIONING SUPPORT OPTIONS TO MAXIMIZE SAFETY AND PROVIDE EASE OF USE

Columbia Medical's bathing aids have been designed to make home care safer and easier. Our products fit a wide range of home environments and meet the varying needs of users and caregivers. In many instances, our bathing systems are a lower cost alternative to home modifications. Our PVC line of Blue Hub products offers unsurpassed durability and versatility. Columbia Medical offers a full line of equipment to assist in the bathroom.

### Checklist for selecting bathing equipment

#### The User and Caregiver

- Age, weight and size of the user
- Functional independence of the user
- Caregivers and their ability to assist
- Other individuals who will also be using the same bathroom
- Postural supports needed to accomplish safe bathing
- Recline or tilt-in-space positioning needs for postural control
- Dystonia or other reflexive movements
- Access for hair washing and other personal hygiene care

#### Durability and Adjustability of Equipment for Growth

- Expected length of use of the equipment
- Accommodation for growth and change of the user

#### The Bathroom Environment

- Whether a bathtub or a roll-in shower will be used
- If the same piece of equipment will be used for both bathing and/or toileting
- The size and configuration of the space
- Space around the commode/tub/shower for equipment
- Doorway widths to allow access of equipment
- Thresholds to cross
- Carpet or flooring in bathroom and adjacent rooms
- Storage space for equipment

#### Other Assistive Equipment In Use

- Will the person transfer from a bed, chair or wheelchair
- Lift equipment used for transfers
- Wheelchair turning radius

Product Weight: 11 lbs.

Width: 17"

Length: 28"

Raises Bath Chair Height: 15"

## Wheelbase Extension Kits

Fits all PVC Extension Legs and Rolling Base.

**MODEL #8872** Side Wheelbase Extension Kit

**MODEL #8873** Front and Rear Wheelbase Extension Kit

# Wrap-Around Bath Supports

Lo-Back shown without Padding

Hi-Back shown with Padding

## PROVIDE EXTRA SUPPORT AND IMPROVED SEATING POSTURE WHILE SITTING

### Features

- Hi-Back™ and Lo-Back™ options available (Hi-Back model includes four-point harness for added trunk support)
- Orthopedic contoured back with support belts
- Padded back models available for pressure reduction
- PVC frame
- Bacteria and fungal resistant ComfortMesh™ seat
- Latex and silicone free

### Benefits

- Orthopedic back height adjusts vertically
- May be used as bath support or floor sitter
- Wide-stance stable base fits into any tub
- Easily adjustable back heights
- Compact design for easy storage or travel
- Rustproof frame and tear resistant mesh fabric for extra durability
- Mounting Base allows you to upgrade or replace the support back to the next size for a fraction of the cost of a new support

### Available Mesh Colors\*

## Accessories for Wrap-Around Bath Supports

### Padded Abductor

Attaches to improve hip alignment and stabilize seating position.

**MODEL #7815** (Blue)

### Pelvic Support Belt

Adds extra security when attached to base. Maintains correct pelvic angle.

**MODEL #7830** (Blue or Gray)

# AquaLift™ Bath Lifter System

FULLY PORTABLE, EASY TO STORE,  
**LIGHTWEIGHT, RECLINING BACK BATH  
 LIFT.** IDEAL FOR HOME USE. DESIGNED  
 FOR PEOPLE WHO HAVE DIFFICULTY  
**GETTING IN AND OUT OF THE TUB.**

## Features

- Low voltage 14.4V "Smart" battery lifts up to 300 lbs. This safety mechanism prevents the chair from lowering when there is not enough power to fully raise after use
- Suction cups keep lifter from sliding
- Back gradually reclines from 8° off of vertical at highest position to 22° at bottom position (seat remains flat)
- Side flap for easy lateral transfer
- Easy to use soft-touch control
- Battery charger
- Latex and silicone free

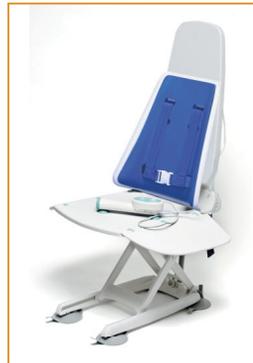

## Benefits

- Easy to operate
- No tools required for installation
- Fits most bathtubs
- Provides versatile positioning
- Easy to transport
- Easily disassembles for storage or travel

## Accessories

- Lateral Support **MODEL #8100P-13** (Blue or Rose, see pg. 14)
- Positioning Belt **MODEL #8835** (Blue or Gray)

Hi-Back Support with Padding

# Optima™ TSS™ (Toilet & Shower System)

## MULTI-USE SYSTEM FOR COMPLEX POSITIONING NEEDS

### Features

- Durable, adjustable height frame
- Unique Hi-Back™ and Lo-Back™ wrap around supports, available in three sizes
- Height, angle, and depth adjustable back support
- Soft-padded cushion for pressure reduction, available in three sizes
- 5° seat angle for positioning
- Built-in seat depth for growth
- Width adjustable, swing-away armrests, available in two heights
- Height adjustable, swing-away footrests
- EZ Clean™ Casters with removable axle for easy cleaning
- Latex and silicone free

### Benefits

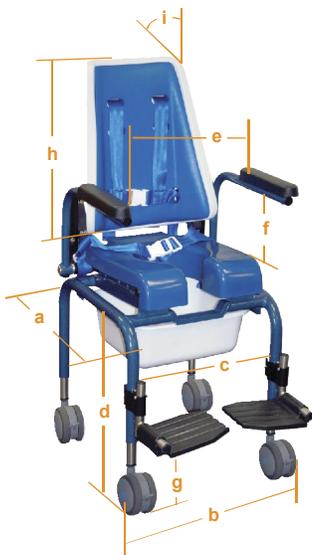

- Multi-use system; functions as a stand-alone commode, over-the-toilet system, or roll-in shower chair
- System can grow in seat depth and accepts multiple back sizes
- Configuration and accessory options can accommodate complex positioning needs
- Easily adjusts to varying toilet configurations
- Small footprint and tight turning radius in small spaces
- Armrests provide support and stability
- Armrests and footrests swing away for easier transfer
- Anterior support tray available
- Easily disassemble into a compact package for transport or storage

# Columbia Medical “Blue” PVC Hub Story

U.S. Patents #3,795,218; D606,389S; D606,387S; D606,388S; D592,492

## Why are the connecting hubs blue?

Connecting hubs are critical when building PVC devices. To improve durability and increase the strength in this key component, Columbia Medical formulated the proprietary rehab **Columbia Medical “Blue” PVC Hub**. Compared to conventional hubs, the **Columbia Medical “Blue” PVC Hub** provides greater strength and durability for use in clinical applications.

## PVC Hubs and Tubes

### Features

- Proprietary rehab grade Blue Connector
- Industry leading durability
- Rounded bent corners instead of joint connectors
- The only Blue and White medical supports in the rehab industry

### Benefits

- Less breakage
- Stronger than standard PVC connectors and tubes for increased safety and durability
- Material designed specifically for use in clinical applications
- Easy to clean and keep sanitary

## INDUSTRY LEADING DURABILITY

## EZ Clean™ Casters\*

### Features

- Removable center axle for cleaning

## ComfortMesh™ Material

Featured on most Columbia Medical bath products

### Features

- Bacterial and fungal resistant
- Latex and silicone free

### Benefits

- Stronger and softer than standard mesh covers to last longer and improve user comfort
- Easy to clean
- Does not contain common allergenic materials

\*EZ Clean Casters is a trademark of Care Products, Inc.

## Solutions for Daily Living

### Optima™ TSS™ (Toilet & Shower System)

MULTI-USE SYSTEM FOR COMPLEX POSITIONING AND SUPPORT NEEDS

#### MULTIPLE ADJUSTMENTS

- Versatile system accommodates complex positioning needs
- Utilizes unique wrap-around back supports
- Offers maximum adjustable options
- System can grow with the individual
- Small footprint and tight turning radius fits in small spaces
- Multi-use system, functions as a stand-alone commode, over-the-toilet system, and roll-in shower chair, lowering overall equipment cost

### QUALITY • INNOVATION • SAFETY

- ENHANCING THE QUALITY OF LIFE FOR INDIVIDUALS WITH DISABILITIES
- MEETING THE UNIQUE NEEDS OF OUR CLIENTS
- PROVIDING SAFE SOLUTIONS FOR DAILY LIVING

For over 30 years, Columbia Medical has established a reputation for developing high quality, innovative products that enhance the lives of individuals with disabilities. Our commitment to quality, innovation and safety are unsurpassed.

### Car Seat Safety Meets Complex Positioning

#### Spirit™ APS™ car seat accommodates users up to 130 lbs.

FEATURING INNOVATIVE POSITIONING SYSTEMS

*Spirit*™ APS™ (Adjustable Positioning System™) Car Seat is the only car seat to feature optional swing-away hip and trunk supports normally found in complex seating and wheelchair systems.

What's more, the Spirit provides:

- Adjustable padded headwings
- 5-point harness
- Optional swing-away abductor
- Optional seat depth extender
- Optional pressure reducing viscoelastic foam
