

Comfort - Functionality - Durability

The Lumex Powered Bariatric Recliner is the perfect solution for larger patients who require a wider recliner with an increased weight capacity. This recliner, with a heavy-gauge steel frame, has a maximum weight capacity of 700 lb when

evenly distributed! A four-function hand pendant activates the motor, allowing caregivers to safely recline and reposition patients.

Multiple Positions for Enhanced Patient Comfort

Features:

- Quick-release trigger mechanism on push handle allows recliner to swiftly move into Trendelenburg position
- Equipped with rechargeable battery pack for operation if the power goes out
- Four swivel casters facilitate transport and maneuverability in confined areas
- Durable, high impact side tables sit flush with chair arm to conveniently hold prep materials. Side table is smooth and features tapered edges for easy cleaning
- Legrest and backrest raise and lower independently, giving the caregiver complete control over positioning
- Comes complete with head pillow for extra support and patient comfort
